MEMORANDUM FOR: THE DIRECTOR

Review by the DD/I, OTR, and CA Staff of the attached proposed legislation for the establishment of a Citizens' Council for the spread of freedom has indicated some opposition to the proposal. However, since it is one which will operate outside Government channels, I do not recommend we take exception other than noting that authority in such a Council to demand and receive information from this Agency could raise serious security objections.

Before dispatching, it will be necessary to obtain approval from BOB that our reply is in consonance with Administration policy. In the instant case, this will be routine.
